About Inverary Golf Course

Inverary Golf & Country Club opened the doors to its beautiful landscape in 1980 as a nine-hole course. Prior to the creation of the course the land was operated as a farm, and many of the natural elements of the land were incorporated into the design and still exist today. It wasn't until 1998 that the back nine was created making the course a full eighteen holes.

The front nine is a wonderful course for golfers of all abilities, wide long fairways with just the right amount of trees and water to keep your game challenging and interesting. It acts as a relaxing warm up for the back nine.

Numbers ten through thirteen are a series of holes which consists of long winding rivers and sand traps. Although there are obstacles, the opportunity for good scores is still there, and they are some of the most beautiful holes on the course. Once you reach number fourteen, the course takes you through some narrow holes that are cut out of a maple forest and make for a scenic final stretch to the club house.

Once you've finished the 18th hole, you're welcomed with an air conditioned club house and a fully licenced bar and grill. You're more than welcome to sit and enjoy our large deck and patio that offers a great view of the ninth and eighteenth hole.
